Petition for Late Claim to Priority

This Petition by the applicant's attorney, Louis F. Wagner is submitted in accordance with 37 C.F.R. §1.78(a)(2) and 37 C.F.R. §1.78(a)(5).

Enclosures Contained with this Petition

1. Declaration of applicant's attorney (Exhibit A); and
2. Application Data Sheet (Exhibit B).

Statement of Facts Involved

This pending U.S. patent application Serial Number 10/709,578 was filed on 14 May 2004 without any claim to priority. Through the most recent office action, the applicant's attorney has recognized the issues raised by the examiner, and now wishes to claim priority from an earlier filed application, which disclosed, but did not claim the subject matter of the instant invention. The first appreciation of this facet of the disclosure was through the substantive office action issued by examiner Kriellion Antionette Sanders.

1. The claim to priority identified in the instant application is made in a utility application filed after November 29, 2000.
2. The claim to priority is being made outside of the time period of four months from the actual filing date of the later-filed application or sixteen months from the filing date of the prior-filed application.
3. The claim to priority is being requested to be entered as stated in the amendment response filed on 24 September 2007.
4. A Petition surcharge as identified under 37 C.F.R. §1.17(t) (\$1,370.00), namely the acceptance of an unintentionally delayed claim for priority, accompanies this Petition.

5. The entire delay between the date of the claim was under under 37 C.F.R. §1.78(a)(2) and the date this claim is being filed was unintentional.

Subsequent Actions taken by Applicant's Attorney

Applicant's attorney is submitting herewith an Amendment in response to a pending office action received on the instant matter. The substance of the office action by Examiner Sanders has suggested that a properly filed terminal disclaimer in conjunction with a claim to priority to a commonly owned, previously filed patent application would permit various claims to be in a condition for allowance.

The applicant further submits an Application Data Sheet to further comply with the requirement (Exhibit B).
